

Fluid Power Market in **Türkiye** CETOP Market Outlook 2022/ 03

17.03.2022

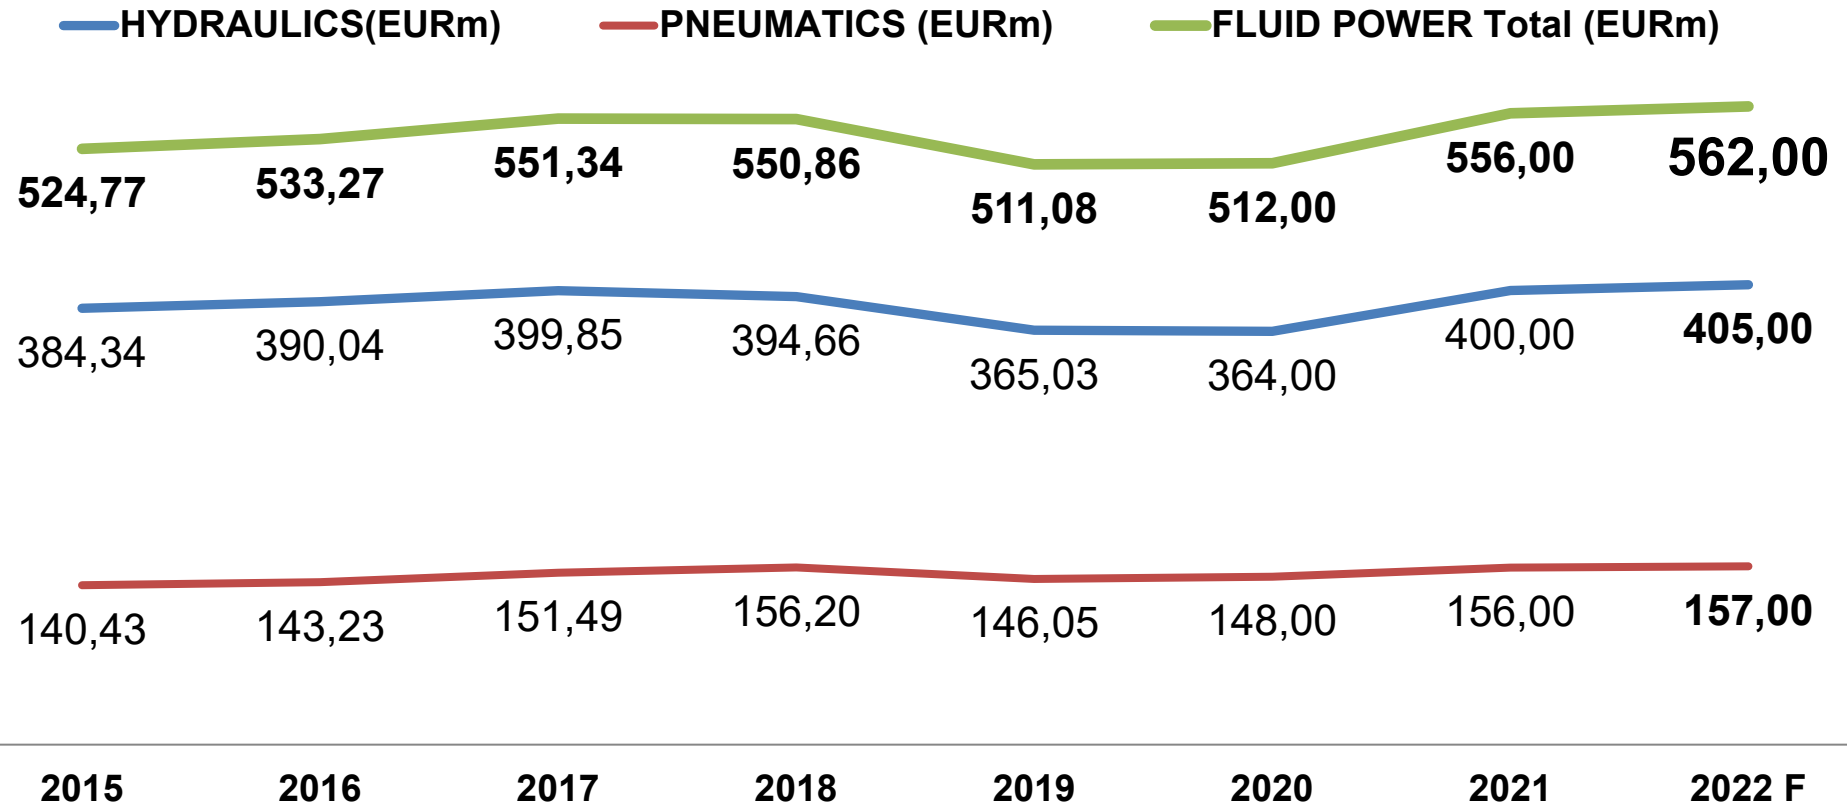

FLUID POWER INDUSTRY / HOME SALES

Türkiye 2015 - 2022

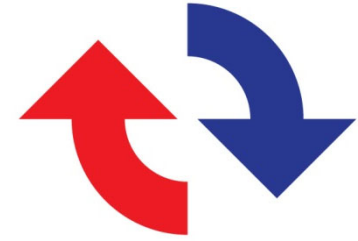

FLUID POWER TURKEY - AKDER

**We are concerned about the market not growing.
We have to be prepared for the worst,
staying at the level of 2021 can be a success.**

FLUID POWER INDUSTRY in Türkiye

Continuing Negative Things:

For The Whole World

- *Ukraine - Russia War / most important of all*

As a result of this situation;

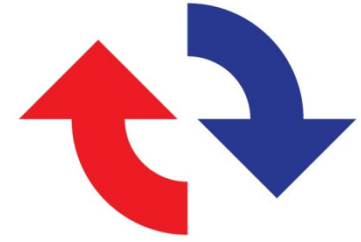

Economy of Türkiye, which was already not good, made it even more fragile.

For FPI & Sector (Producer/Import/Export)

- **High energy cost**
 - **High transport cost**
 - **High raw material cost**
 - **Not enough material / Long term**
- } Increasing Costs

For People;

- **High Inflation / Reduction in Purchasing Power**
- **High Food Prices & Energy Prices**
- **Rising Unemployment**

THANK YOU...
